

centormail™ MAX

Digital Mailing System Series

THE ONLY DIGITAL MAILING SYSTEM IN THE MARKETPLACE THAT VERTICALLY WEIGHS AND PROCESSES MAIL – WITHOUT PRESORTING – SO LARGE, BULKY PACKAGES WON'T SLOW YOU DOWN.

From postcards to letters, even flats and parcels – the centormail™ MAX is built to perform reliably, processing all formats of mail promptly and dependably. With a nearly 1" pass-through, the widest in the industry, oversized mail and #10 envelopes are processed with the same speed and efficiency. And the modular design of the centormail™ MAX system means that it's ready to grow with your business. From optional scales to bulk ink systems, select from a number of optional components that will increase productivity and save money. Processing up to 140 letters per minute, centormail™ MAX proves that no matter how you stack 'em, it can get the job done quickly.

MAILINGSOLUTIONS
AN FP GROUP COMPANY

centormail™ MAX Digital Mailing System

KEY ADVANTAGES

EXCLUSIVE VERTICAL FEEDER

centormail™ MAX is perfect for large and bulky mailings up to nearly one inch thick. A tension control with four levels enables swift processing of all sizes of mixed mail, from extra thin to extra thick. And the vertical envelope transport draws from a stack and meters letters in every format — accepting standard postcard to 10"x14" letter sizes.

CONVENIENTLY WEIGH AND RATE ALL SIZE MAIL

The integrated 10 lb. optional scale calculates postage rates for larger pieces. It weighs the letter, calculates, and displays the correct postage. For oversized packages, print the meter on an adhesive label delivered by the integrated label dispenser. Also upgradeable to 15 lbs.

RELOAD POSTAGE EFFORTLESSLY

At the touch of a button, the integrated modem instantly downloads postage funds through the FP teleset™ data center.

SET UP AND CHANGE PRINT HEADS FASTER AND EASIER!

The easyconnect Bulk Ink System delivers long-lasting, high-quality printing while minimizing messy ink print head changes and increasing ink yield. This not only saves your business money on printing supplies, but helps to reduce your environmental impact.

OPTIONAL MAILING AND ACCOUNTING SOFTWARE

Unlimited cost accounting reporting capabilities conveniently manage and evaluate postage used to generate reports. Utilizes key USPS® Confirmations Services.

- 1 Vertical Feeding**
Perfect for catalogs and other bulky mailings, featuring the widest pass-through (nearly 1") of any mailing system in the industry.
- 2 True Mixed Mail Processing**
No presorting of mail required – NONE.
- 3 Easy Paper Path Access**
Enables quick and easy access should a jam occur.
- 4 Feeder Thickness Control**
Keeps misfeeds and multiple feeds from occurring.
- 5 Envelope Moistener**
Pre-moistens envelopes for immediate sealing.
- 6 Dynamic Scale**
Automatically calculates the weight of mail pieces without a break in the process.
- 7 Automatic Label Dispenser**
Easily prints quick postage labels.
- 8 Master/User Card**
Allows for advanced user security.
- 9 Optional 10 lb. Integrated Scale**
Weighs and calculates correct postage. Add differential weighing to improve processing time. Upgradeable to 15 lbs.
- 10 Convenient Storage Bins**
Store all of your supplies in these easy-access storage bins.
