

FP 1001

Desktop Paper Folder

WITH THE **FP 1001**, ANYONE CAN MAKE CLEAN, NEAT, AND PROFESSIONAL FOLDS

One of the easiest paper folders to operate! With a user-friendly selection lever that's clear and unimposing, the **FP 1001** Desktop Paper Folder makes folding simple and quick for everyone in the office — the perfect solution for organizations, clubs, and schools.

This easy-to-use machine lets you quickly set and create "Z" or "C" folds on up to 140 8 ½" x 11" sheets — in no time! It automatically folds at a rate of 140 sheets per minute or manually feeds up to three stapled or unstapled sheets. The paper ejection system ensures paper exits the machine with a crisp fold and into a neat stack.

FP 1001 Desktop Paper Folder

KEY ADVANTAGES

HANDLES GLOSS-COATED AND CARBONLESS STOCKS

The unique anti-static strip takes the stick-together problems out of using carbonless paper. Just load the paper and go.

CREATES STANDARD AND CUSTOMIZED FOLDS

The **FP 1001** performs standard and customized folds on paper ranging from 5 3/4" x 6" to 8 1/2" x 11" and double parallel folds on legal-size paper. It's the only folder in its price range to reliably perform on any stock up to 60 lbs.

SELF-ADJUSTING PAPER WEIGHT BAR

A special "feeler bar" in the feed system is pre-adjusted to put the right pressure on each page, virtually eliminating the problem of doubles or misses. You can also intermix your paper stock on the same run.

COMPACT, STURDY DESIGN

Other features include a very small footprint, rugged 12-gauge steel construction for long wear, and fold tables that are fully enclosed to dampen operational sound. Ideal for small offices.

SPECIAL FEATURES

- No Separator to Set for Each Paper Thickness
- Patented Cartridge Roller System (for Easy Maintenance)
- Accepts Stapled Sheets (in Manual Feed Mode Only)
- Folds 140 Sheets per Minute
- Compact Design
- Virtually Maintenance-Free
- Quiet Operation
